Practice workbook · Explain oral rehydration and treatment of diarrhoeal disease

Oral rehydration therapy for cholera or Ebola, plus antibiotics where the disease is bacterial.

3 question parts: 1 worked-example retry and 2 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.
